

Adobe Dreamweaver Level 2

Course DRM-02D 2 Days Instructor-led, Hands-on

Course Description

Our Adobe Dreamweaver course uses the latest version, but if you haven't upgraded yet, the course features work from earlier versions of Dreamweaver as well

During this two-day, Instructor-led course, students will learn how to work with text, lists and tables. They will learn how to add links to text and images; work with images; work with navigation; add interactivity; publish a finished site to the web; work with code and design for mobile devices.

At Course Completion

Upon successful completion of this course, students will be able to:

- Incorporate graphics, text, animation and video
- Build rich interactive applications
- Add links to text and images
- Add interactive elements to your sites, such as HTML5-compatible video and animation
- Work with HTML5 and CSS3 code and structure
- Publish a finished site to the web
- Design for mobile devices

Prerequisites

Students should have attended the course, Adobe Dreamweaver Level 1 or have equivalent knowledge and skills.

Course Outline
