

Articulate Storyline 2, 3 and 360 Level 2

Course ART-02C 2 Days Instructor-led, Hands-on

Course Description

Articulate Storyline is one of the hottest eLearning development tools in the world. Storyline 2 is a rapid development authoring tool that lets you create engaging, interactive e-learning courses without programming knowledge.

Take your Articulate Storyline eLearning projects to new heights by attending this two-day instructor-led course. You'll learn how to create custom themes and templates; motion paths, animations and states. Sliders, dials forced navigation, random quizzes and video controls are covered.

You'll also learn about adding accessibility and reporting to a Learning Management System.

At Course Completion

Upon successful completion of this course, students will gain the following skills and knowledge:

- Themes and templates
- Advanced animations/motion paths
- Gamification
- Video control and sliders
- Advanced quizzing
- Accessibility and reporting
- Understand the Storyline Interface
- Understand Scenes and Slides
- Understand Timeline features
- Understand Layers
- Publish your project to HTML5
- Add narration by recording or importing audio
- Increase user interactivity with click, highlight, and text entry boxes
- Learn how to increase user interactivity
- Insert question and scoring slides
- Understand branching to different Slides and Scenes
- Import PowerPoint slides into a project
- Creating links to websites and to another project
