Panorama: NGFW Management

Course PAN-NGFW 2 Days Instructor-led, Hands-on

Introduction

The Palo Alto Networks Panorama: NGFW Management course is two days of instructor-led training that should help you to:

- Learn how to configure and manage the next-generation Panorama management server
- Gain experience configuring templates (including template variables) and device groups
- Gain experience with administration, log collection, and logging and reporting
- Become familiar with planning and design considerations for Panorama deployment

The Panorama NGFW Management course is an update of the former EDU-220 Course.

Who Should Attend?

- Security Administrators
- Security Operations Specialists
- Security Analysts
- Security Engineers and Architects.

At Course Completion

This course should help students gain in-depth knowledge about configuring and managing a Palo Alto Networks Panorama management server. Administrators that complete this course should become familiar with the Panorama management server's role in managing and securing the overall network. Network professionals will be shown how to use Panorama aggregated reporting to provide them with a holistic view of a network of Palo Alto Networks next-generation firewalls.

Outline

Module 1: Initial Configuration

Module 2: Adding Firewalls

Module 3: Templates

Module 4: Device Groups

Module 5: Log Collection and Forwarding

Module 6: Using Panorama Logs

Module 7: Panorama Administrative Accounts

Module 8: Reporting

Module 9: Troubleshooting
