

Snowflake Level 2

Course ISI-1546

2 Days

Instructor-led, Hands on

Introduction

This 2-day course builds on to the Fundamentals course to provide students the knowledge they need to scale your virtual warehouse, manage and monitor tenants, work with SnowSQL CLI, advanced queries, and integrating with other Enterprise products.

ISInc is not an authorized Snowflake training partner.

Prerequisites

Before attending this course, students should have attended ISI-1545, Snowflake Fundamentals.
